Travelife Awards

During the third party Travelife audit, if a hotel or accommodation meets [the requirements of the sustainability criteria](#), they may achieve a Travelife Bronze, Silver or Gold award. This will allow them to showcase their achievements by displaying the Travelife logo in their own marketing materials. In addition, they will enjoy a higher profile because Travelife is supported by some of the largest tour operators in Europe - TUI, Thomas Cook, Kuoni Travel and Virgin Holidays – who all display Travelife-awarded in their brochures and on their websites. Travelife-awarded hotels also feature in the Travelife Collection which is the online brochure of Travelife properties that is used by holidaymakers and the travel trade. Travelife awards are valid for two years following the audit date and it is possible for hotels and accommodations to demonstrate that they are continuing to improve their performance and upgrade their award status.

Silver

In their audit, the property has demonstrated that they meet the [Bronze and Silver mandatory criteria of the Travelife Sustainability System](#), seeking ways to provide extra benefit to the local community and environment. They will have demonstrated they are actively involved in minimising the use of chemicals that damage human health and the environmental, as well as ensuring that all employees

have formal written contracts of employment.
